Subject: Pagination Deficiency / Pace Canyon Fan Portal "As-built"Information / Task ID # 2700

Dear Ms. Miller:

The Division has completed the review of the "as-built" information for the Pace Canyon fan portal installation; one deficiency has been identified, which is relative to pagination.

The Division will be forwarding a conditional approval of this application, with final approval being based upon the correction of the pagination errors and the submittal of six clean copies of the information for the incorporation process.

Upon verification that the pagination errors have been corrected, one of the clean copies will be stamped "incorporated" and returned to you for insertion into your mining and reclamation plan.

Please refer to the attached deficiency, which has been copied from the hydrology memo review of the Task ID #2700 application.

Thank you, Vickie...
